You deserve the best.

# LAURASTAR expertise **at your service**

The Swiss company LAURASTAR invented the system of professional ironing for private use in 1986. Since then, almost 2 million users in over 40 countries worldwide have enjoyed quality ironing on a daily basis.

Two decades later, LAURASTAR has become the benchmark for innovative, high-quality ironing systems. LAURASTAR views this position of world leader as a responsibility which you, the consumer of our appliances, confer on us.

Every day, the LAURASTAR engineers, designers and employees work towards improving products and services so that we live up to our promise of making life easier for you in your everyday tasks, thus leaving you more time to spend with your family and friends or for your leisure pursuits.

This is achieved through our research laboratories specialising in ironing and our capable customer service experts who can offer extensive, personalised advice. Lastly, we develop products for the LAURASTAR label that meet your actual needs and come equipped with international technological innovations, backed by the Swiss-made quality guarantee.

Flick through the pages to explore the new MAGIC i-S6 ironing system featuring the new, exclusive CLiICK™ and LiIGHT™ technology, a major innovation in the ii™ – INTELLIGENT INNOVATIONS programme, patented by LAURASTAR, which can halve your ironing time and is extremely comfortable to use with an unequalled result thanks to the first lightweight professional iron that's less tiring to use.

Sincerely,

Your LAURASTAR team

# MAGIC i-S6

the first lightweight professional iron  
that is less tiring to use

### **LiIGHT™ – LIGHTWEIGHT PROFESSIONAL IRON**

**NEW** – The first lightweight professional iron that is more comfortable and less tiring to use.

### **DOUBLE VOLUME**

Double volume of extra fine steam, for a lasting result leaving no damp traces.

### **CONSTANT PRESSURE**

A constant pressure of 3.5 bars produces 200 litres of steam volume per minute – the result is professional ironing quality.

### **EASY FOLDING – PATENTED**

Foldable board with six height-adjustment settings for all ironing requirements.

### **PERMANENT IRONING**

Removable 1,2-litre reservoir – uninterrupted ironing without waiting.

### **COMPACT STORAGE**

Easy-to-move system thanks to its two pairs of integrated wheels and its reduced size of 20 cm when stored.

### **CLiICK™ – INTUITIVE AUTOMATIC STEAM**

**NEW** – Intelligent, intuitive function of the automatic steam for effortless ironing twice as fast.

### **MAGiiC™ – ACTIVE TABLE**

Automatic, silent blower and vacuum from the 2-speed board for cold, crease-free ironing.

### **SAFETY BOX**

Iron safety storage box, to keep the still warm iron well protected.

### **AQUA FILTER**

Scale filter – ordinary water can be used and the iron's service life is extended.

### **FAST HEATING TIME**

Super fast heating time in three minutes for immediate use.

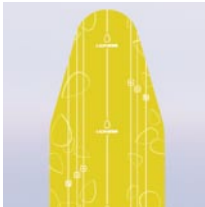

### **AUTOMATIC REWIND**

**NEW** – The 2.5 m cable rewinds automatically, making it easy to move the system in total safety.

# life is more beautiful with the MAGIC i-S6

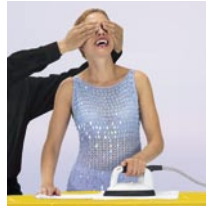

Exclusive ORIGAMI-COVER cover including practical folding lines guaranteeing perfectly aligned piles of clothes.

Such a lightweight iron that ironing becomes a real delight.

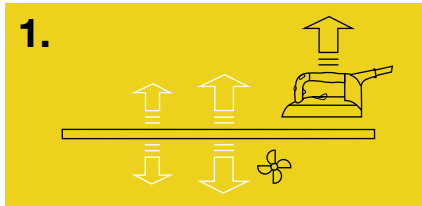

So user-friendly that anyone can use it, even your spouse.

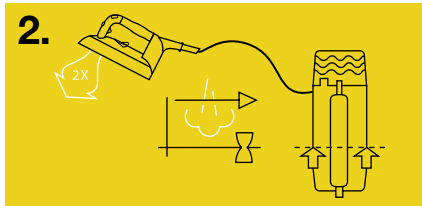

No more need to push a button, it manages the steam all by itself.

# the 3 features of LAURASTAR PROFESSIONAL IRONING™

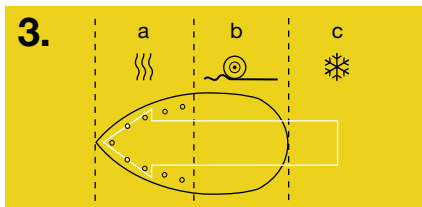

## **LAURASTAR active table – patented**

The LAURASTAR active board incorporates a 2-speed, silent blower/vacuum system to prevent creases and seam marking more effectively. It also dries the ironed fabric immediately. This is the patented MAGiiC™ technology.

## **LAURASTAR professional steam – patented**

The steam is diffused at a constant pressure which produces 200 litres of steam per minute, as recommended by ironing professionals. Heated once in the boiler, the steam is cooled and then reheated inside the iron: this is the unique LAURASTAR double volume steam.

## **LAURASTAR professional soleplate – patented**

The LAURASTAR professional soleplate is designed for the following three steps in ironing: (a) heating, (b) smoothing and (c) cooling the fabric. The fibres are thus fixed in a single movement for a lasting result.

LAURASTAR

ii™ – INTELLIGENT INNOVATIONS

# new: LiiGHT™ – lightweight professional iron

Our customers' precious comments have led us to develop for you the first lightweight professional iron. The combination of the slimmed-down soleplate and ultra light materials noticeably reduce the iron's weight while maintaining the efficiency of LAURASTAR's professional iron. The unique advantages of LiiGHT™ technology are as follows:

## **1. Less fatigue**

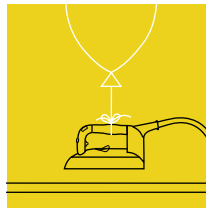

Lifting an iron now requires less effort, thus limiting tiredness and offering you optimum comfort while you're ironing.

## **2. Comfort of use**

The iron practically slides along the garment by itself.

## **3. Professional results**

The quality of the ironing remains unequalled.

# new: CLiICK™ – intuitive automatic steam

A slight movement of the wrist produces the steam automatically as the iron is pushed forwards and stops it immediately when the iron is halted or moved backwards: no more need to press a button to activate the steam. Combined with the active board, the blower engages automatically as soon as the iron is handled. The unique advantages of CLiICK™ technology are as follows:

## 1. Time saving

The combination of automatic steam and the active board reduces ironing times by half.

## 2. Comfortable use

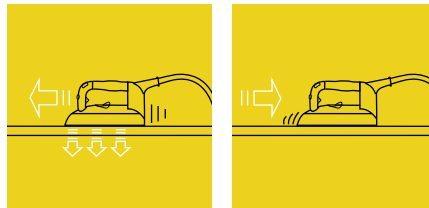

The right amount of steam comes out automatically and precisely.

## 3. Less effort

The thumb now remains permanently on the ergonomic iron handle.

## 4. Energy saving

Just the right amount of steam requires less steam production and energy.
